Hello Everyone-

I will keep it short and to the point. THANK YOU!

We tend to move so quickly that we hardly take the time to say thank you. We have so many projects going on I wouldn't dare try to list them all.

Yes, we have made many changes. The changes were necessary to maintain the strength of our Brand. I appreciate your patience and understanding during our changes.

Enjoy this Issue.

BEAUTY TIPS:

The Natural Look...

Before putting on foundation, apply lotion to your face. It keeps makeup from flaking, and looking like there is too much on.

Use one coat of lipstick, and then blot. Before you go out, put on a natural-colored gloss over your lips.

Use brown eyeliner, black is too harsh and heavy.

Use bronzer, instead of blush, on cheeks, top of nose, and forehead. A sun-kissed glow is more natural.

ASK MS KATWALK PLANET

Q:

Ms. Kat-

Having problems in my relationship and not really sure if he is issue or am I? We talk a lot, but not about our relationship. Maybe you could give some helpful tips on what to do.

Please help me, Ms. Kat!

~Problems

A:

Problems-

The first thing you two may need to do is make time for one another... I mean really make time... yes, an actual appointment with each other, If you live together, put the cell phones on vibrate, put the kids to bed, and let voicemail pick up your calls. If you two can't talk without raising your voices, go to a public spot like the library, park, or restaurant, where you'd be embarrassed if anyone saw you screaming. Set up some rules... like not interrupting until the other is through venting. Remember that a large part of communication is listening, so be sure your body language reflects that. That means, don't look around, look at your watch none of that. Be sure to nod so he knows you're getting the message and rephrase if necessary.

Hope this helps.

Good Luck Sweetie!

TIPS For HER!

Find out what his fantasy is... then act it out for him or play the...

The FANTASY LOTTERY...

Both you and your lady write (5) five sexual fantasies down on five separate notebook cards. Over dinner and wine, pull out the cards and make three piles—"yes," "maybe someday," and "not on your life." Put the possibilities in a shoe box, and once a month pull out a winner.

Tell him what you want and how you want it from him. Men hate to guess at what women want... so don't make him.

Use a chair. Straddle your guy and move those hips back and forth and give him a sexy strip lap dance... Then when it's time for sex, just go at it!

Watch some porn together. Once you are both in the mood, try to imitate what the porn star are doing.

Have FUN!

ADVICE For HIM!

We Like It When You Talk

Talking during sex stimulates more than our ears.

What kind of talk? Dirty, praising and instructive are great starts. As amusing as it may sound, a woman's words can make a guy feel as potent and virile as a Roman gladiator.

We Always Need It, But Not for the Reason You Think

Men are accused of being sexually insatiable, but women should rethink this. "Men see sex as a celebration," They wish women would take more of a carpe diem or seize the day approach to it. We move through life at the speed of sound, with multiplying challenges and pressures. It's easy to allow demands on our time and energy to rob us of the joy, pleasure and opportunity that sex affords us. On the long list of priorities, it should not be at the bottom.

Consider the health benefits: Orgasms release oxytocin, which has been called the "bonding hormone," bringing couples closer together while it alleviates anxiety and stress, reduces blood pressure and promotes healing.

Basically... go get some!

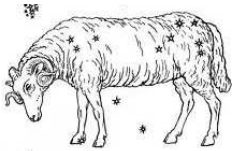

Have FUN!!!
